

# CAREER TRAX Q&A

**Ariel Creal**  
**Laboratory Technician**  
**Azenta Life Sciences**  
**Indianapolis, IN**

**Q: What does this company do?**

A: Where I work, we store scientific samples. These are from medical cases, from research, etc. Clients pick us to ensure the safety of the samples.

**Q: What brought you there?**

A: My career goal is to be a forensic anthropologist. I picked this company to get experience in the biology world.

**Q: Where did you go to school?**

A: I graduated from Indiana University, Bloomington with a Bachelor of Arts in Anthropology and Criminal Justice. I'm currently getting my Masters of Science in Anthropology with a specialization in Bioarcheology.

**Q: How long have you been here?**

A: I've been with the company for a year.

**Q: What is your typical day like here?**

A: I'm a laboratory technician. I register and work with different types of pharmaceutical samples, blood samples, serum, etc. I work in the biobank which consists of many different types of storage freezers that produce very, very cold temperatures, from -20C to -190C.

**Q: What do you like most about your job?**

A: I like that I get to work independently, but also get plenty of opportunity to work with others. This company is willing to give a shot to good people. I have learned so much in the year I've been here. It's a lot of responsibility but it's doable. I like that my team lead gives recognition for good work. That is very important to me.
