

# WE ARE **IN** LIFE SCIENCES.

Indiana's life sciences sector accelerates forward, marking a year of record-breaking achievements and solidifying its status as a global leader. With over 3,000 companies employing 67,000 Hoosiers, the industry's economic contribution has soared to \$95 billion. Innovation is at the heart of the industry's progress—a testament to a vibrant collaborative spirit that's making a significant global impact.

## TRANSFORMING GLOBAL HEALTH

Indiana's unique strengths in metabolic disorders, orthopedics, oncology, neurodegenerative diseases, and Alzheimer's, have contributed to a robust ecosystem and groundbreaking developments that are redefining global health and patient care.
