

# LIFE SCIENCES IN INDIANA: EVANSVILLE REGION

HEALTHCARE LOGISTICS | BIOPHARMA PRODUCTION | WORKFORCE RESILIENCE

Southwest Indiana is a growing life sciences hub with deep expertise in medical device manufacturing, pharmaceuticals, and health logistics. The region's advanced manufacturing capacity, strategic location, and integrated healthcare networks make it a vital link in Indiana's life sciences economy. Anchored by Deaconess Health System, Berry Global, and AstraZeneca, and supported by the University of Southern Indiana and Ivy Tech, the region is developing a next-generation workforce to meet global healthcare demands.

## LEADERSHIP IN EXPORTS

Indiana ranks #1 in life sciences exports and Southwest Indiana contributes through large-scale manufacturing and critical logistics capabilities. The region's output supports both domestic delivery and international markets.

**Product Categories** Pharmaceuticals, injectable therapies, medical packaging, health and nutrition products

### Key Exporters

**Total Establishments** 89

## Indiana's Excellence
